

Rubbermaid FLOW™

FLOOR FINISHING SYSTEMS

Smarter Floor Finishing

RubbermaidFLOW™

Help reduce labor costs and improve worker well-being with the new Rubbermaid FLOW™. High-capacity backpack and handle system allows user-controlled release of solution for more efficient floor finishing.

NON-SLIP TIP ■

When placed against a wall this tip helps prevent the handle from sliding and falling.

TRIGGER HANDLE ■

Red ergonomic trigger dispenses finish solution with each press.

CLEAN CONNECT™ TECHNOLOGY ■

Backpack hose connects to the trigger handle using Clean Connect™ technology for spill-free delivery of finish solution.

QUICK CONNECT CONVENIENCE ■

Enables quick and easy mop head / frame changes.

LIGHTWEIGHT ALUMINUM FLAT MOP OPTION

For users preferring flat mopping, there is a Rubbermaid FLOW™ Kit featuring a lightweight aluminum frame and Q805 Nylon Finish Pad.

■ **HIGH-CAPACITY BACKPACK SYSTEM**

Rubbermaid FLOW™ Backpack holds 1.5 gallons for finishing up to 3,000 sq ft of floor surface. The 3" diameter opening makes refilling easy.

■ **IMPROVED COMFORT**

Backpack features venting channels to improve airflow and reduce moisture on back while wearing.

■ **LUMBAR AND BACK PADDING**

Extra thick padding provides comfortable lumbar and back support.

■ **PROTECTS WORKER WELL-BEING**

Chest and waist straps distribute weight to the hips instead of shoulders, reducing back strain.

■ **BUILT-IN CONVENIENCE**

Includes 2 pockets for MSDS sheet, water bottle, and MP3 player for comfort and efficiency.
