

SCOTCHGARD™ STONE FLOOR PROTECTOR

Lasting strength and shine with less maintenance

Scotchgard™ Stone Floor Protector delivers a highly durable floor with less labor — and a significantly higher return on investment.

In just two coats, Scotchgard™ Stone Floor Protector produces a clean, shiny floor that is less susceptible to scuffs, black marks, stains and scratches. This high-performance product lasts for up to a year with minimal maintenance. That means you'll spend less of your operations budget on labor and floor-finishing chemicals, without sacrificing your glossy floors.

Features and benefits:

- Helps protect against stains, scuffs and scratches for a long-lasting finish
- Only two coats are needed, helping to reduce maintenance
- Dries in 20 to 30 minutes, so rooms are functional faster
- Easy to reapply — no stripping or deep scrubbing required
- Provides an environmentally preferable solution* for greener cleaning
- Suitable for multiple substrates: concrete, marble, terrazzo and other porous-stone surfaces
- 2,500-5,000 square feet of coverage per 3.78L bag
- Not a traditional floor finish
- Meets CARB 2010 VOC

Helps reduce
your operations
costs up to 35%
in the first year.

Scotchgard™ Stone Floor Protector provides protection for up to one year. Studies show that reducing the maintenance and chemical requirements associated with traditional acrylic floor finishes results in up to 35 percent savings in operations costs the first year and up to 60 percent savings in subsequent years.

SCOTCHGARD™ STONE FLOOR PROTECTOR

A durable finish that's easy to apply and repair

Scotchgard™ Stone Floor Protector installs easily: strip, burnish, dust and apply. The unique backpack application is as simple as mopping, so virtually anyone on your staff can do it. The finish is contained in a sealed pouch, so there's no pouring and less likelihood of chemical contact.

Once Scotchgard™ Stone Floor Protector is applied, you can maintain it for up to a year with regular dust mopping, damp mopping or machine scrubbing, as necessary.** If scratches occur between reapplications, a quick burnish with the Scotch-Brite™ Purple Diamond Floor pad will restore the appearance. And, when it's time to recoat, simply clean the floor and reapply — no need to strip or deep scrub.

Scotchgard™ Stone Floor Protector creates a hydrophobic surface that resists water, stains and dirt, so finished floors are easily cleaned by dusting and wet mopping — leaving behind a clean, smooth floor with a beautiful shine.

The Scotchgard™ Stone Floor Protector works best in combination with these products:

- Scotch-Brite™ Sienna Diamond Floor Pad Plus
- Scotch-Brite™ Purple Diamond Floor Pad Plus
- 3M™ Easy Trap Duster
- 3M™ Easy Shine Applicator System

Before Cleaning

Dirt only "sits" on the surface and is easily cleaned away with neutral cleaner.

After Cleaning

Dirt is easily removed, leaving behind a clean, smooth floor with beautiful shine.

Key: ■ Hydrophobic Surface

☼ Dirt Particle

| Item # | Product Name | Quantity/Size | Description |
|--------|-----------------------------------|-------------------------|---------------------------------------------------|
| 59379 | Scotchgard™ Stone Floor Protector | 2-3.785 liter bags/case | For use with the 3M™ Easy Shine Applicator System |

Protection that pays

* According to the U.S. Office of the Federal Environmental Executive, or OFEE, Environmentally Preferable Products are defined in Executive Order 13101, entitled "Greening the Government through Waste Prevention, Recycling and Federal Acquisition," as products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance or disposal of the product or service. In Jan 2007, E.O. 13101 was replaced with E.O. 13423, "Strengthening Federal Environmental, Energy and Transportation Management" to improve and expand on the basic principles of E.O. 13101, E.O. 13423 further sets goals in the areas of energy efficiency, acquisition, renewable energy, toxic reductions, recycling, sustainable buildings, electronic stewardship, fleets and water conservation.

** Do not use any floor cleaning chemicals containing 2-Butoxyethanol as this will damage the coating surface.
