

# COSHH Risk Assessment

## JANGRO STAINLESS STEEL CLEANER

Product Code: BG055

Danger

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in 12 x 400 ml metal, aerosol, pressurised, canister sprays. Delivered in single units if required.	Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure the covering cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Containers must be stored in a cool, dry storage area away from sources of heat, including direct sunlight.	Pressurised canister – therefore there is a risk of explosion if involved in a fire or if punctured. If involved in a fire, carbon and nitrogen oxide gasses may be emitted. Product is flammable. Caps are not child proof.	Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel.	Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that canisters are sound and are not corroded.
<b>USAGE</b>			
Product is dispensed in a fine mist via a push-top spray. Product is applied directly onto the surface to be treated from a distance of 10–30 cm. Product can also be dispensed onto a cleaning cloth.	Risk of eye contact. Risk of skin contact. Risk of inhalation.	Handle the containers with care. Wear Personal Protective Equipment. Spray product away from the body and face at all times. Ensure that the container is returned to store when not in use. Ensure that the work area is well ventilated at all times. Never spray near sources of heat or incandescent material. Always read the manufacturer's instructions.	Provide employees with PPE as follows: <ul style="list-style-type: none"> <li>• Safety glasses (if risk indicated)</li> <li>• Neoprene, Rubber or PVC gloves</li> </ul> Ensure that operatives are aware of location of First Aid facilities and personnel. Ensure that operatives are aware of all fire procedures.
<b>DISPOSAL</b>			
Empty canisters can be disposed of as normal waste. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Small risk of inhalation and ingestion. Risk of contamination with other substances.	Ensure that containers are exhausted prior to disposal. To dispose of residual stock, empty product via spraying outside in an open space. Do not puncture or incinerate even when empty.	Ensure that operatives wear Personal Protective Equipment when disposing of residual stock.
