

# HYGEN™ R-40 RECYCLED MICROFIBRE CLOTHS, 40.6 X 40.6 CM, RED, 24-PACK

SKU: 1820581

## HYGEN™ R-40 RECYCLED MICROFIBRE CLOTHS, 40.6 X 40.6 CM, RED, 24-PACK

Rubbermaid Commercial Products® HYGEN™ r-40 Recycled Microfiber Cleaning Cloths deliver sustainable strength and proven performance for every cleaning task. Made with 40% post-consumer recycled polyester, HYGEN™ repurposes plastic bottles to reduce reliance on virgin plastics. Engineered for superior durability, it withstands 200 commercial launderings (100 with bleach) while maintaining bright colour for easy colour coding. Its advanced warp-knit microfiber is split into 16 filaments with over 95% splitting ratio, creating maximum surface area to trap dirt and remove 99.9% of tested fungi and bacteria using only water\*. Designed for wet or dry use, these colour-coded cloths help prevent cross-contamination and drive higher productivity across various cleaning tasks. From commercial facilities to home cleaning, HYGEN™ r-40 is built to perform—proving that cleaning supplies can be powerful and responsible.

## FEATURES AND BENEFITS

- **MADE WITH 40% POST-CONSUMER RECYCLED POLYESTER:** HYGEN™ repurposes plastic bottles to reduce reliance on virgin plastics.
- **STAY-TRUE COLOURS:** Colours remain bright and bold throughout the product's lifetime.
- **REMOVES PATHOGENS WITH PLAIN WATER:** Eliminates 99.9% of tested fungi and bacteria\* using only water.\*\*
- **SUPERIOR DURABILITY:** Built to endure up to 200 commercial washes and 100 with bleach.
- **COLOUR-CODED CLEANING:** Helps prevent cross-contamination by using cloths designated by area or task.
